

7/9/09

CreativeHub (www.creativehub.com) is a venture-backed startup in NYC which provides businesses with digital advertising services and which proposes to build an automated codebase to provide websites and email marketing to small U.S. businesses.

CreativeHub has a position available for VP of Technology; candidates for this position should have both excellent project management and technical programming skills.

CreativeHub is also looking for freelancers to work part-time on web development projects.

Interested candidates should email their resume to Neel Premkumar [<npremkumar@creativehub.com>](mailto:npremkumar@creativehub.com)
