- > Information Technology and Web Development Associate Position:
- >
- > The Genocide Intervention Network (GI-Net) is changing the way the
- > United States and the international community respond to the world's
- > worst crime by building the first permanent constituency dedicated to
- > ending genocide. GI-Net empowers individuals and communities with the
- > tools to prevent and stop genocide, to educate their communities,
- > pressure their elected officials, and fundraise directly for civilian
- > protection. Currently, the organization's work is focused on ending the
- > ongoing genocide in Darfur, Sudan; providing material support for
- > African Union peacekeepers in the region and organizing political action
- > campaigns for a more robust civilian protection force.
- >
- > GI-Net operates a number of online campaigns, including our primary
- > website, [GenocideIntervention.net](http://GenocideIntervention.net), our student-oriented website,
- > [STANDNow.org](http://STANDNow.org), and campaign websites such as [DarfurScores.org](http://DarfurScores.org),
- > [SudanDivestment.org](http://SudanDivestment.org) and [1800Genocide.com](http://1800Genocide.com).
- >
- > The Genocide Intervention Network seeks an experienced professional to
- > assist in the development and maintenance projects for GI-Net's
- > interactive website. These positions will provide invaluable experience
- > and is ideal for college students or recent college grads seeking to be
- > a critical part of a successful start-up non-profit organization.
- >
- > This position is on-site in GI-Net's Washington, D.C. headquarters.
- >
- > Applications will be considered on a rolling basis until a qualified
- > candidate is hired.
- >
- > Job Description:
- >
- > The Information Technology and Web Development Associate for the
- > Genocide Intervention Network will assist the Internet Strategy
- > Coordinator and the Director of Communications in implementing technical
- > and web-based projects for the organization. Specifically, job duties
- > will include:
- >
- > \* Assist in an overall information maintenance strategy involving
- > customer relationship management (CRM), member and donor data, and
- > organizational contacts.
- > \* Assist in data conversion and manipulation and in the gathering of
- > statistics on metrics based on this data.
- > \* Assist in the development of new websites and the redevelopment of
- > current websites. This work may include programming, design, user

- > interface and other aspects.
- > \* Help envision and implement new online tools to service members of the
- > Genocide Intervention Network.
- > \* Help reach out to members through Web 2.0 sites such as MySpace,
- > Facebook, YouTube, Flickr.
- > \* Train staff on new technologies as needed, and help to support staff
- > with technological expertise.
- > \* Update and maintain website content
- > \* Work with third-party contractors on technical and web-based projects.
- >
- > \* Write and maintain documentation for technical and web-based tasks.
- >
- >
- > Qualifications:
- >
- > All employees of GI-Net must be committed, self-motivated professionals
- > with the ability to work effectively independently and with a team. The
- > IT and Web Development Associate must have excellent interpersonal
- > skills and strong written and verbal communication skills. Priority will
- > be given to applicants who have a specific interest in preventing and
- > stopping genocide.
- >
- > As a member of the web development team, the IT and Web Development
- > Associate will be expected to have a strong background in website
- > development and design. Candidates should be thoroughly familiar with
- > accessible, standards-compliant, semantic websites.
- >
- > Additional skills that will increase a candidate's application:
- >
- > \* Experience building or maintaining online communities, especially
- > those incorporating user-created content.
- > \* Experience in graphic design, especially in using Adobe Photoshop and
- > Adobe Illustrator for website development.
- > \* Experience with content management systems, especially Drupal.
- > \* Experience with other nonprofits, community organizations or issue
- > campaigns.
- > \* Experience writing or implementing online advocacy campaigns,
- > including e-mail advocacy.
- > \* PHP and mySQL knowledge.
- >
- > Compensation:
- >
- > Salary will be commensurate with experience.
- >
- > Benefits:
- >

- > The Genocide Intervention Network offers a competitive benefits package
- > to our full-time employees including:
- >
- > Medical, dental, and life insurance
- > Paid vacation and holidays
- > Paid sick and personal leave
- > WMATA SmartBenefits program
- >
- > How to apply:
- >
- > Please e-mail a r E9sum E9, cover letter, and a writing sample (unedited
- > by others) to Greg Kuo at [Jobs@GenocideIntervention.net](mailto:Jobs@GenocideIntervention.net). In your cover
- > letter, please mention examples of any previous work. You may attach
- > images or addresses of previous website development.
