Information re: requesting to be considered for a dual degree/transfer can be found at www.seas.upenn.edu/graduate/handbook/g-academic.php#2degree

Students requesting to be considered for dual degree status/transfer status should not make such a request until after completion, including posting of grades, of the first semester in the program to which they were originally admitted.

Such requests are evaluated with the same criteria used in evaluating candidates applying directly to our graduate programs; i.e. candidates should have the appropriate background, academic credentials, test scores, etc.
