

Presentation:

- Send to Ben before Monday morning (April 14, 9am)
- About 7 min in length
- Describe the problem you are trying to solve
- Describe the approach you plan to take to solve the problem
 - State clearly everything you will need to implement to solve the problem
 - State clearly who is responsible for what part of the project
 - State all libraries or existing software you plan to use
- Your proposed timeline and deliverables
 - Break it into 2 or 3 stages
 - The first stage is what you will definitely finish
 - The other stages are riskier and depend on time available

Proposal Report:

- 1-2 pages in length
- The description of the problem you are trying to solve
- The approach you plan to take to solve the problem
 - State clearly everything you will need to implement to solve the problem
 - State clearly who is responsible for what part of the project
- A sketch of how you are going to show your results
- Your proposed timeline and deliverables
 - Break it into 2 or 3 stages
 - The first stage is what you will definitely finish
 - The other stages are riskier and depend on time available
- List all libraries or existing software you plan to use
- List papers related to your problem
