Assignment 3

2a Read the paper “Process-Algebraic Analysis of Timing and Schedulability Properties” handed out during the lecture.

2b Write a one page summary for each of the three papers that includes:
   • Summary of the core ideas
   • Strengths and weaknesses of the paper and its presentation
   • Suggestions of how to improve the presentation

If you did get a copy of the papers during the lecture, please contact me (sfischme@seas.upenn.edu) and you will get your printout.
