

CIS 399: Science of Data Ethics

Spring 2019

Book Club Presentation Notes/Slides

Due 9am the day **before** your presentation

What to Submit

Presentations will be 20-30 minutes long and all team members should approve the plan for the presentation. Please submit slides or a short set of notes on the content you plan to present. These are due at 9am the day before your presentations, in an attachment at your book club discussion.

As a reminder, look for some content to include in each of these aspects

1. Identify important consequences of predictive technology on people/society,
2. Relate these to technical and scientific aspects of the development of that technology,
3. Make connections with material we have already covered in class,
4. Any proposed solutions or guiding principles for inclusive and ethical practices,
5. Any other information you would like to include.

When to Submit

This submission is due at 9am the day **before** your presentation. For example, if you are presenting in class on April 16th, you must submit your slides/notes before 9am on April 15th. Please look at our [lecture plan](#) to see when you are presenting.
